SUMMARY

Computer Science junior (GPA 3.43) with an Applied Mathematics minor. Built and deployed full stack applications using React, Flask, MySQL, and AWS. Strong in SQL, debugging, testing, and documentation, with experience delivering work in Agile Scrum sprints. Seeking Spring, Summer, or Fall 2026 internships.

TECHNICAL SKILLS

Languages	Python • Java • C++ • JavaScript • TypeScript • SQL • PHP • C
Web	React • Vite • Redux • HTML5 • CSS3 • Tailwind • Responsive design
Backend / DB	Flask • Node.js • REST APIs • MySQL • Database design • Auth0
Cloud / Tools	AWS EC2 • AWS RDS • Google Cloud DNS • Ubuntu Linux • Git/GitHub
Workflow / Testing	Agile • Scrum • Sprints • Team collaboration • JUnit • ETL style scripts

EDUCATION

B.S. Computer Science, University of Wisconsin–Stout Expected Dec 2026

Minor: Applied Mathematics GPA 3.43/4.0; Dean's List: Spring 2023, Spring 2025, Fall 2025

Key Courses: Database Systems, Software Engineering Practicum, Software Engineering Principles, Computer Architecture, Algorithms, Operating Systems, Discrete Mathematics. (IP): Cryptography, Machine Learning, Statistics

PROJECTS

RankMyStocks — Full Stack Web Application (Capstone) ([Live](#) | [GitHub](#)) 2025

- React • Vite • React Router • Redux Toolkit • Auth0 • Tailwind • Flask • MySQL • AWS (EC2, RDS) • Ubuntu • yfinance • OpenAI API
- Built a React single page stock discovery and portfolio ranking app with Auth0 login and Redux state, backed by a Flask REST API.
 - Designed a MySQL schema for portfolios, transactions, and historical snapshots, then migrated to AWS RDS for reliable cloud persistence.
 - Deployed the API on AWS EC2 (Ubuntu) using environment based configuration; integrated yfinance and generated interactive portfolio performance charts through the API.
 - Built a market news feed and daily digest using external news APIs, with optional summarization using LangChain and the OpenAI API when keys are configured.

Stocks' Option Playbook Web App 2025

- PHP • JavaScript • MySQL • Alpha Vantage & FRED APIs
- Generated 50+ options strategy PDFs daily using live macroeconomic indicators and ticker data, and implemented backend caching to reduce repeated API calls and improve page responsiveness.

Agile Bingo Game 2025

- Java • Swing • JUnit • Git • Scrum
- Collaborated in a six member Scrum team, delivered features in sprints, and wrote JUnit tests while tracking tasks in Trello.

EXPERIENCE

Student Manager, University Dining Services, UW–Stout Feb 2023 – Present

Student Employee of the Year Nominee (2025)

- Lead 15+ person crew, run POS operations, and complete daily cash and sales audits with accurate records.
- Train new hires, enforce SOPs, and communicate clear handoffs during peak service.

Conference Assistant, Housing Services, UW–Stout May 2024 – Aug 2024

- Supported front desk operations and guest check in and check out for summer housing.

LEADERSHIP & SERVICE

Event Manager and AWS Core Team Member, UW–Stout AWS Club Dec 2025 – Present

- Coordinate event logistics and promotion for workshops and guest sessions and support hands on learning activities.

Member, Leo Club (Kathmandu) Mar 2021 – Present

- Participate in community outreach events and assist with coordination for service initiatives.
